Re: Colm Walsh Electrical Contractors : CW Electrical

I wish to confirm that I have worked with Colm Walsh Electrical Contractors 144 Church Road, East Wall, Dublin 1 on numerous projects over the last 8 years. I have found them to be very reliable, efficient and professional in all aspects of their work. They recently completed a very complex hospital refurbishment and extension in the Royal Hospital Donnybrook and have also completed several commercial projects for me

The works were carried out to a high standard and efficiently completed, and we would have no hesitation in seeking his services in the future.

Yours sincerely

Danny Gorman BSc Arch . Arch Tech.
